

Position Description

Position	Clinical Nurse Specialist – Stomal Therapy
Team / Service	Community Health Service
Group / Directorate	Community allied Health and Older Adults Service
District	Capital, Coast & Hutt Valley (CC&HV)
Responsible to	Clinical Nurse Manager Community Health Service
Children’s Act 2014	This position is classified as a children’s worker, requiring a safety check including police vetting before commencing and every three years
Location	This position is expected to work from Hutt Campus, Hutt Hospital. From time to time as part of Variance Response you may be required to work in other areas.

Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/ Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region

- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services Rheumatology Dental Services Regional Public Health and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

Mana whakahaere Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources.

Mana motuhake Enabling the right for Māori to be Māori (Māori self-determination) to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori.

Mana tāngata Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness.

Mana Māori Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

Te Mauri o Rongo

Te Mauri o Rongo recognises our connection to this work, to each other, to the people we serve and to our whakapapa. It speaks to specific behaviours that we will expect from each other guided by the pou of Te Mauri o Rongo:

Wairuatanga

Working with heart, the strong sense of purpose and commitment to service that health workers bring to their mahi.

Rangatiratanga

As organisations we support our people to lead. We know our people; we will grow those around us and be accountable with them in contributing to Pae Ora for all.

Whanaungatanga

We are a team, and together a team of teams. Regardless of our role, we work together for a common purpose. We look out for each other and keep each other safe. “Whiria te tangāta” – we will weave our people together.

Te Korowai Āhuru

A cloak which seeks to provide safety and comfort to the workforce.

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Te Whatu Ora is committed to Te Tiriti o Waitangi principles of partnership, participation, equity and protection by ensuring that guidelines for employment policies and procedures are implemented in a way that recognises Māori cultural practices.

We are committed to supporting the principles of Equal Employment Opportunities (EEO) through the provision and practice of equal access, consideration, and encouragement in the areas of employment, training, career development and promotion for all its employees.

Group Perspective

Community, Allied Health and Older Adults Group (CAHOA) provides services to people of all ages in outpatient, community and inpatient settings across Capital, Coast and Hutt Valley District.

Wellington Hospital is one of five major tertiary hospitals in New Zealand and provides a comprehensive range of specialist secondary and tertiary services.

Hutt Hospital also provides a range of specialist secondary and tertiary services. Older Person Rehabilitation Service (OPRS) is the Health of Older People Service based at Hutt Hospital and provides assessment, treatment and rehabilitation in community, inpatient and outpatient settings.

Kenepuru Hospital provides health of the older person, rehabilitation, outpatient, accident and medical, a medical day ward and some elective surgical services.

There are Community Health bases at Wellington, Hutt, Kenepuru and Kapiti campuses that provide a variety of community services across CC&HV.

The ORA service is part of the CAHOA Group.

CAHOA group is currently undertaking an enhancement project that intends to review its services and align them as much as possible across the District to optimise and promote patient centred, equity focused care.

Service/Team Perspective

CC&HV Community Health services work towards a model of ambulatory care and early discharge, with CHS providing acute specialist nursing services.

The broad range of competencies practiced by community nurses enables an appropriate response to the acutely ill, the dying, post-acute, frail, disabled, rehabilitating clients and complex long term conditions, all of which cannot be managed by the GP or Practice Nurse. Nurses are required to be adaptable, resourceful and competent in a wide range of clinical settings.

CHS uses a team nursing model in which specialty nurses work alongside generalist district nurses. The generalist nurses work exclusively in the community and the specialty nurses work across both the community and inpatient settings facilitating the seamless continuum of care.

The Clinical Nurse Specialist (CNS) Stomal Therapy provides specialist nursing advice, care and expertise, both in delivering direct patient care and in supporting other staff caring for patients with a Stoma.

The CNS Stomal Therapy team is made up of CNS Stomal Therapy) full time equivalents (FTE) and District Nursing Stomal Therapy FTE.

The focus is on assisting, directing and supporting the patient care and whānau with a Stoma through modelling expert clinical skills, promoting best practice, facilitating interdisciplinary collaboration and providing education. The CNS has an active role in the development and achievement of the strategic direction for the Community Health Service.

The CNS leads development and implementation of speciality specific pathways, protocols and guidelines, in accordance with relevant national and international standards and guidance. This includes evaluating standards of care, in line with research, policy and evidenced-based practice across a range of settings.

Role Purpose

The CNS – Stomal Therapy uses advanced nursing knowledge and skills to:

- Maintain Nurse-led services in inpatient, outpatient, home and community settings.
- Participate in the planning and delivery of education for district health professionals that support and enhance management of Stoma management.
- The focus is on assisting, directing and supporting the care of patients with Stomal therapy requirements through role modelling, expert clinical skills, promoting best practice, facilitating interdisciplinary collaboration and providing education.
- Takes a lead role in researching, developing, implementing and evaluating standards of care, in line with evidenced-based practice in both the inpatient and outpatient setting.
- As a senior nurse, leads the development of service specific pathways, protocols and guidelines, in accordance with National Service Framework, Transitional and Support Services –Stomal Therapy Services Tier Three service specification.

Key Accountabilities

The following accountabilities are in addition to the NCNZ competencies for registered nurses (RN). The CNS is expected to be Senior Expert (CC) and Expert (HV) on the Professional Development and Recognition Programme (PDRP). Competence is the combination of skills, knowledge, attitudes, values and abilities that underpin effective performance as an advanced practice nurse.

In this Position Description the terms person or patient are used to refer to those who use health services, who in different settings may be referred to as tangata whaiora, health consumer or client.
