| Children's Act 2014 | This position is classified as a children's worker, requiring a safety check including police vetting before commencing and every three years |
| Location | This position is expected to work across the Hutt Valley. |

Te Whatu Ora

The Health System in Aotearoa is entering a period of transformation as we implement the Pae Ora/Healthy Futures vision of a reformed system where people live longer in good health, have improved quality of life, and there is equity between all groups.

We want to build a healthcare system that works collectively and cohesively around a shared set of values and a culture that enables everyone to bring their best to work and feel proud when they go home to their whānau, friends and community. The reforms are expected to achieve five system shifts. These are:

1. The health system will reinforce Te Tiriti principles and obligations
2. All people will be able to access a comprehensive range of support in their local communities to help them stay well
3. Everyone will have equal access to high quality emergency and specialist care when they need it
4. Digital services will provide more people the care they need in their homes and communities
5. Health and care workers will be valued and well-trained for the future health system

Context

Capital, Coast & Hutt Valley district provides hospital and health services in primary, secondary and tertiary healthcare to a total population base of approximately 445,000 citizens.

We are accountable for meeting the needs of and improving health outcomes for all the constituent populations of our district, and the region more broadly. Together we:

- provide secondary and tertiary, medical and surgical hospital services alongside community based health care
- fund local health providers and work collaboratively with the community to create and support multiple health education initiatives and projects within the region
- deliver health services directly as well as contracting external providers
- provide local, sub-regional, regional and national health services as well as community-based health, rehabilitation and support services.

The majority of the district's population live in Wellington and Lower Hutt. The Māori and Pacific populations of Lower Hutt and Wellington are proportionally similar, with the largest Pacific population in the region in Porirua. Kapiti and Upper Hutt have similar numbers of Māori and Pacific people. Most people are enrolled with a GP near their place of residence, so the increasing focus on community-based healthcare is expected to lead to better health outcomes for these population groups. Hutt Hospital provides secondary and some tertiary, medical and surgical hospital services alongside community based health care from its main facility in Lower Hutt City. In addition to funding local health providers and working collaboratively with the community to create and support multiple health education initiatives and projects, Hutt Hospital is the centre for five tertiary regional and sub-regional services - Plastics, Maxillofacial and Burns Services; Rheumatology; Dental Services; Regional Public Health; and Regional (Breast and Cervical) Screening Services.

Wellington Regional Hospital in Newtown is the region's main tertiary hospital with services such as complex specialist and acute procedures, intensive care, cardiac surgery, cancer care, neurosurgery and renal care. The hospital is the key tertiary referral centre for the lower half of the North Island and the upper half of the South Island.

Kenepuru Community Hospital and Kapiti Health Centre provide secondary and community services based in Porirua and the Kapiti Coast

MHAIDS is the mental health, addictions and intellectual disability service for the Wairarapa District and Capital, Coast & Hutt Valley District, with multiple specialist facilities. Ratonga Rua-o- Porirua is our forensic, rehabilitation and intellectual disability inpatient unit.

Te Tiriti o Waitangi and Māori Health Outcomes

Māori are the indigenous peoples of Aotearoa. We have particular responsibilities and accountabilities through this founding document of Aotearoa. We value Te Tiriti and have adopted the following four goals, developed by the Ministry of Health, each expressed in terms of mana and the principles of:

- | | |
|------------------------|--|
| Mana whakahaere | Effective and appropriate stewardship or kaitiakitanga over the health and disability system. This goes beyond the management of assets or resources. |
| Mana motuhake | Enabling the right for Māori to be Māori (Māori self-determination); to exercise their authority over their lives, and to live on Māori terms and according to Māori philosophies, values and practices including tikanga Māori. |
| Mana tāngata | Achieving equity in health and disability outcomes for Māori across the life course and contributing to Māori wellness. |

Mana Māori Enabling Ritenga Māori (Māori customary rituals) which are framed by Te Aō Māori (the Māori world), enacted through tikanga Māori (Māori philosophy & customary practices) and encapsulated within mātauranga Māori (Māori knowledge).

We will target, plan and drive our health services to create equity of health care for Māori to attain good health and well-being, while developing partnerships with the wider social sector to support whole of system change.

Te Mauri o Rongo

Te Mauri o Rongo recognises our connection to this work, to each other, to the people we serve and to our whakapapa. It speaks to specific behaviours that we will expect from each other guided by the pou of Te Mauri o Rongo:

Wairuatanga

Working with heart, the strong sense of purpose and commitment to service that health workers bring to their mahi.

Rangatiratanga

As organisations we support our people to lead. We know our people; we will grow those around us and be accountable with them in contributing to Pae Ora for all.

Whanaungatanga

We are a team, and together a team of teams. Regardless of our role, we work together for a common purpose. We look out for each other and keep each other safe. “Whiria te tangāta” – we will weave our people together.

Te Korowai Āhuru

A cloak which seeks to provide safety and comfort to the workforce.

District Responsibility

The district leadership have collective accountability for leading with integrity and transparency a progressive, high performing organisation, aimed at improving the health and independence of the community we serve and achieving equitable outcomes for all. The leadership team are responsible for achieving this aim, aligned with our Region, within the available resources, through a skilled, empowered, motivated and supported workforce in line with government and HNZ policy.

Team/Service Perspective

Te Herenga Tangata offers a range of intervention options to people of all ages, (who meet the eligibility criteria). The team has the objective of optimising social and physical function, preventing unnecessary presentations to ED and supporting effective discharges from hospital. There is a focus on interdisciplinary work, with single discipline interventions provided as appropriate.

Using funding from the DHB, ACC, and the Ministry of Health the service offers a range of interventions options including;

- Comprehensive Geriatric Assessment
- Outcome focussed rehabilitation
- Assessment and appropriate support for people with disabilities, long-term conditions and life limiting illnesses
- Consultancy and support to colleagues in the Residential Care sector, Home and Community Support Services, Primary care and other community agencies.

Purpose of the role

An **occupational therapist** (third year of practice onwards) provides safe and clinically effective patient/client assessment and intervention, within a specific clinical area with a development of more in depth knowledge and skills.

Clinical specialty/area

In collaboration with IDT, District Nursing and Primary health partners, Community Occupational Therapists offer home based assessment and intervention for people with disability and age related impairments as well as those with long term personal health, palliative, and medical conditions.

Clinical skills

The Therapists are skilled in assessment and intervention for complex equipment, pressure care, wheeled mobility and postural management, lying and positioning and housing modifications.

Staff work closely with clients and their family/whānau/carers, referrers, Allied Health Assistants, administration and technical staff and equipment store staff. The role requires collaborative working relationships with the hospital and primary health providers as well as with external agencies including Enable NZ, Needs Assessment Service Co-ordination, Residential Care facilities, social housing (Kainga Ora and Hutt City Council), NGOs and equipment suppliers.

The role may involve the supervision and education of rotational/new graduate therapists and students. It involves advising and supporting other therapists and health professionals in areas of specialty community occupational therapy. The position requires an ability to work alone managing a busy caseload, and also as part of an IDT. There is an expectation that therapists will become involved with quality initiatives within Te Herenga Tangata and the wider profession.

The post holder will work in other areas as identified or following a reasonable request in order to support the organisation in managing safe patient care and maintaining service delivery.

Key Accountabilities

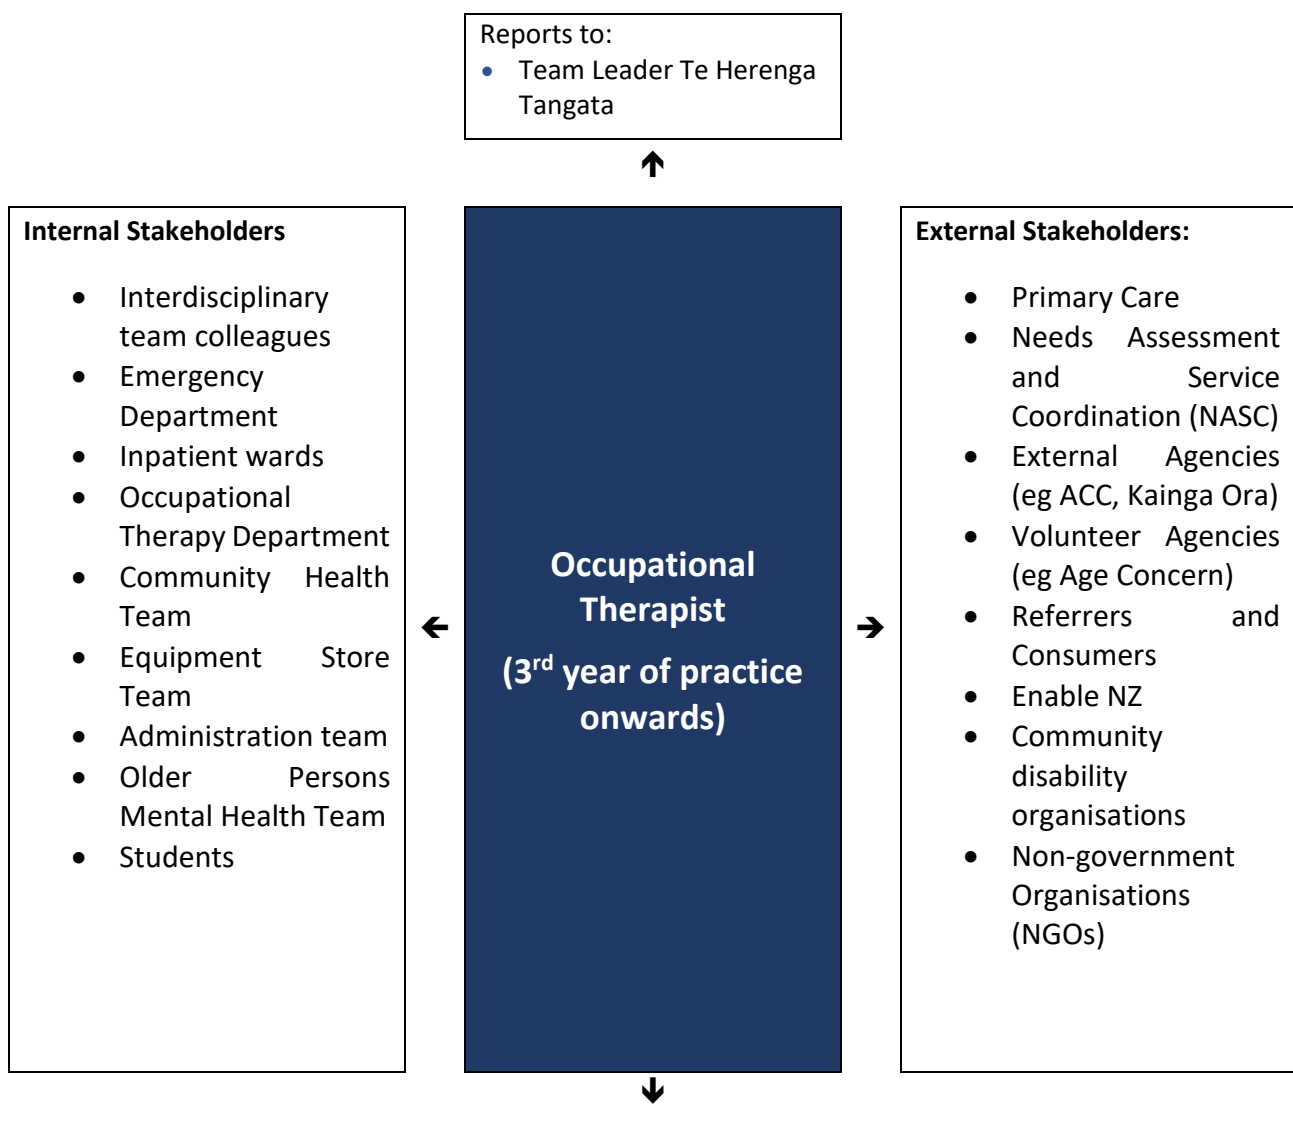

The following role accountabilities may evolve with organisational change and there may be additional duties, relevant to this position that will be required to be performed from time to time.

| Key accountabilities | Deliverables / Outcomes |
|----------------------|---|
| 1. Clinical Practice | <ul style="list-style-type: none"> • Takes legal and professional responsibility for managing own caseload of patients / clients with increasing complexity and be able to independently adapt and make decisions regarding occupational therapy intervention. • Utilises information available to prioritise patients/clients to enable appropriate allocation of referrals and workload with staff in the team. • Carries out comprehensive assessment with patients (and whānau where appropriate) This may include use of standardised assessments to assist in assessment and intervention planning. • Formulates and delivers individualised occupational therapy intervention using comprehensive clinical reasoning skills and in depth knowledge of treatment approaches. This should, take into account the patient's own goals and those of the wider multidisciplinary team (MDT). • Demonstrates effective communication, to establish a therapeutic relationship and set expectations with patients / clients, whānau and the MDT, inclusive of the wider health team and external agencies as appropriate. This includes relaying complex, sensitive and contentious information. • Assesses the patient's understanding of assessment, interventions and goals and gain informed consent for intervention, taking into account those who lack capacity (e.g. those with cognitive difficulties). • Regularly reassesses and evaluates the patient / client's progress against identified goals and adjust intervention as situations change. • Refers on to other services to work with the patient/client towards achievement of longer term goals. • Develop comprehensive discharge / transfer plans as appropriate. • Carries out regular clinical risk assessments for patients/ clients on own caseload and takes action to effectively manage identified risks, seeking support where appropriate. • Demonstrates provision of culturally safe and bicultural practice with patients and their whānau. • Demonstrates an awareness of health inequalities, with evidence of implementing actions within own clinical practice towards reducing these for the patient/client and/or whānau. • Represents the service and / or individual patients/clients at clinical meetings and case conferences to ensure the delivery of a coordinated multidisciplinary service and to ensure occupational therapy is integrated into the overall intervention (where appropriate) including discharge planning. • Completes documentation consistent with legal and organisational requirements. |

| | |
|-------------------------------------|---|
| | <ul style="list-style-type: none"> • Adheres to any applicable recognised best practice for occupational therapy and any relevant clinical policies and practice guidelines. • Provides advice, teaching and instructions to patients, carers, relatives and other professionals to promote consistency of support being delivered. • Responsible for assessment and prescription of short term equipment, longer term equipment funded by Enable NZ and structural adaptations to the patient's home. • Demonstrates awareness of local, sub-regional and regional context in relation to provision of health and social support and the impact on service provision. • Identifies unmet needs of patients and identifies potential solutions to address these needs. • Demonstrates an understanding of the roles of the multidisciplinary team. |
| 2. Teaching & Learning | <ul style="list-style-type: none"> • Maintains competency to practice through identification of learning needs and Continuing Competency (CPD) activities. This should comply with professional registration requirements. • Contributes to training within the team/service. • Supervises, educates and assesses the performance of occupational therapy students. • Provides interdisciplinary education in direct clinical area, or discipline specific teaching across teams. • Demonstrates the ability to critically evaluate research and apply to practice. • Maintains an awareness of current developments in the clinical areas being worked in and make recommendations to changes in practice. • Be involved in the induction and training of newly appointed staff as required. • Completes mandatory training as applicable for the role. • Participates in an annual performance review and associated clinical assurance activities. • Participates in regular professional supervision in line with the organisations requirements and/or professional body. • Provides mentoring and clinical support and / or professional supervision where required. |
| 3. Leadership & Management | <ul style="list-style-type: none"> • Attends and contributes to relevant department, clinical and team meetings, leading and facilitating such meetings as requested. • Assists team leaders and professional leaders in clinical assurance activities of occupational therapy staff as requested. • Directs and delegates work to allied health assistants and support staff as required in the role, ensuring that delegated tasks, documentation and communication is carried out. |
| 4. Service Improvement and Research | <ul style="list-style-type: none"> • Broadens research and development skills through participation in local audit and research projects as identified by team leaders, professional leaders or Advanced or Expert AH professionals. • Participates in quality improvement activities to develop and improve service delivery, clinical practice or professional standards. This may include care pathways / treatment protocols, standards of practice etc. |

| | |
|--|--|
| | <ul style="list-style-type: none"> • Develops and /or participates in regional / sub regional professional networks as appropriate to area of work. • Establishes working partnerships with external organisations to promote integrated working. • Contributes to annual planning process, including identifying gaps in service and participating in work / projects that may result from the planning process. • Practises in a way that utilises resources (including staffing) in the most cost effective manner. • Awareness of and complies with all legislative and contractual requirements as applicable to the role (e.g. Health and safety in Employment Act 1992, Privacy Act 1993, Vulnerable Children's Act 2014, Privacy Act, ACC service specifications etc.). |
|--|--|
